## Effective Virus Protection and Year-Round Defense From:

Allergens

Mold Spores

Bacteria

VIRUSES

Pet Dander

Dust & Dust Mites

Pests

Smog

Home Damage

Reduces Growth Of  
**MOLD & MILDEW**

## The three components of Superior Air healthy air system

### Fresh Air Ventilation

Think of your fresh air ventilation system as your home's own set of lungs. It inhales stagnant, polluted indoor air and exhales clean filtered air. This helps dilute and remove contaminants so you can breathe easier in your home.

Superior Air ventilation equipment meets the requirements of the International Residential Code as well as the International Energy Conservation Code.

# Helps Prevent Termites, Structural Wood Rot & Odors

## Improve Health

Fight viruses, bacteria, mold, and other airborne pollutants that thrive in excessively damp conditions

## Protect Your Home

Shield your belongings and home furnishings from mildew, rot, and warping.

## Save Energy

Balanced humidity prevents your air conditioner or furnace from working overtime, saving you money on future energy costs.

# Superior Air Dehumidifier- Model E100

**W H D: 14" x 16" x 26" Weights 62 lbs.**

The Superior Air E100 Dehumidifier is ideal for dehumidifying your whole home removing up to 100 pints (12 gallons) of water per day.
